HydroTap Classic Plus in Matte Black finish

Over 75 years of innovation

Zenith Water is a wholly owned subsidiary of Zip Water. With unrivalled expertise in instant filtered boiling, chilled and sparkling water, Zenith Water is known globally for being home to the Zenith HydroTap, which dispenses pure-tasting water at the touch of a button.

Founded in Australia in 1947, we've always been innovators, advancing and perfecting our drinking water technology for decades. Today, we're proud to provide workplaces, in over 70 countries across the world with the purest tasting water possible from our range of Zenith HydroTaps.

Access the latest water filtration technology for pure-tasting water. Convenience at the touch of a button for instant boiling, chilled and sparkling water. Stylish designs and finishes to suit any kitchen and declutter bench space for efficiency. Start drinking more, saving time, saving energy and seeing the benefits to your family's wellbeing from your very first glass.

Welcome to the Zenith HydroTap family.

Mike Abbott, Zip International

Water at its best with Zenith HydroTap

Convenience of instant pure-tasting water at the touch of a button

With filtered boiling, chilled and sparkling, plus hot and cold water instantly, we offer the widest choice of water options on the market. So, whether you're filling a plunger of coffee, a glass of cool, crisp drinking water or a sink of washing up water, the choice is at your fingertips.

POWERED BY
G5
TECHNOLOGY

Powered by our latest G5 technology

Embodying functionality, the HydroTap is ideal for those who want appliances that save time, reduce energy, are straightforward to use, simple to maintain and make life in the kitchen a whole lot easier.

Access pure-tasting water thanks to our advanced MicroPurity filtration. Say goodbye to bottled water taking up valuable fridge space and slow, energy-guzzling kettles cluttering your countertops. Welcome the convenience of cooking, sterilising bottles and making tea or coffee with instant boiling water and the handiness of pouring a perfectly chilled still or sparkling glass of water whenever you need it.

Experience water at its best with HydroTap at home

Pure-tasting boiling, chilled and sparkling water in an instant, delivered seamlessly with a Zenith HydroTap. There is a HydroTap to suit every home. A Zenith HydroTap can be a simple addition to your current kitchen, butler's pantry or beverage station or part of a larger kitchen renovation. Zenith service technicians are expert professionals who can install your HydroTap in your home.

Add a HydroTap in addition to your existing mixer tap

Have the best of both worlds by adding a HydroTap over your kitchen sink to access pure-tasting boiling, chilled and sparkling water instantly. We have a wide range of HydroTap styles that will complement your existing sink mixer tap.

Choose a HydroTap with a new matching mixer tap

If you want to match your sink mixer tap with your new HydroTap, we also offer mixer tap styles in 7 modern finishes to complement any kitchen.

Add a HydroTap onto a benchtop

Add a HydroTap on a kitchen island or butler's pantry for a designer hydration station in your home. A HydroTap can be installed on a counter with a matching font to catch any excess water.

The ultimate all-in-one solution for all your water needs

Our most popular HydroTap All-In-One style offers an integrated system with filtered drinking water, plus hot and cold tap water for washing up, all from the one elegant tap. Streamline your bench space and declutter your kitchen.

Installing a Zenith HydroTap has never been easier

Let Zenith Water take care of your HydroTap installation, with our premium installation service. Our team of highly skilled service technicians and regional service providers are available to install your HydroTap in any kitchen*.

Our service technicians can also help maintain your HydroTap. Access the simple online booking form at zenithwater.co.nz

* Available where suitable power, water and drainage are available within 1 metre of the installation location. Excludes cutting of stone countertops, cabinetry and major plumbing modifications.

Say hello to Classic Plus & Elite Plus

Enjoy pure-tasting boiling, chilled and sparkling water instantly with Zenith HydroTap, powered by our most advanced G5 technology.

Sleek design meets slick function

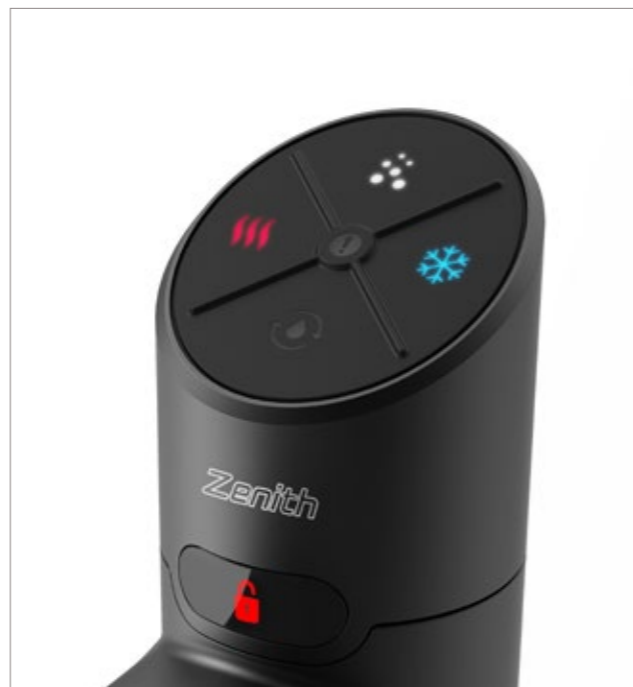

With simple, intuitive controls including continuous flow to fill bottles and coming in seven ultra-modern finishes, HydroTap Classic Plus and Elite Plus will add designer style to any kitchen.

Smarter and more personalised

Create your preferred settings with a few touches using the optimised new menu in the HydroTap G5 command centre. Select energy modes and usage settings for easier customisation.

Setting the hygiene standard

Zenith HydroTap G5 has antimicrobial protection impregnated within key water surfaces as well as on the new touch-pad for enhanced hygiene.

Introducing Celsius Plus All-In-One

An integrated system from a single tap, the Zenith HydroTap Celsius Plus All-In-One offers form and function in a beautiful arc design.

One tap, five water types

The HydroTap Celsius Plus All-In-One seamlessly delivers instant filtered boiling, chilled and sparkling drinking water, plus unfiltered hot and cold water for washing up, all from one carefully engineered tap. The buttons operate filtered drinking water, while the lever dispenses unfiltered hot and cold water.

Enhanced sparkling water experience

With an optimised aerator hidden inside the elegant spout of the tap, you'll be guaranteed delicious sparkling water delivery each time.

Powered by new G5 technology

Leading the way in performance and functionality, Zenith's fifth generation G5 technology continues to deliver the convenience you would expect from a HydroTap. Perfected over 75 years of development and innovation, HydroTap G5 transforms tap water into a form you will love, in an instant.

HydroTap product warranty

Zenith HydroTap G5 is backed by a 36 month comprehensive parts and labour warranty, plus a further 24 months on internal tanks.

PowerPulse technology

Our innovative Zenith PowerPulse technology maintains stored boiling water to within 0.2°C of your set temperature, meaning no energy or time is wasted waiting for water to boil.

Unique safety features

Zenith boiling water is delivered smoothly and the tap has a safety lock to facilitate safe boiling water delivery.

Air-cooled system

Our unique air-cooled refrigeration system is 100% water efficient.

More eco-friendly refrigeration system

Uses R290 Low Global Warming Potential (GWP) refrigerant gas performance.

MicroPurity™ filtration

Inbuilt 0.2 micron NSF-certified filter incorporating innovative silver ion antimicrobial technology means healthier, pure-tasting water.

Antimicrobial protection

Impregnated inside materials in contact with key water paths in HydroTap for added protection against surface bacteria.

CO2 level indicator

New feature in the command centre shows when CO2 gas is running low.

The latest innovation in Zenith HydroTap G5 Our most eco-friendly HydroTap*

Designed for sustainability

Includes a more eco-friendly refrigeration system

Zenith HydroTap now uses R290 refrigerant gas delivering a 95% reduction in Global Warming Potential (GWP) compared to the previous refrigerant gas used.

100% water efficient

Using air-cooling technology to deliver perfectly chilled water means the Zenith HydroTap is 100% water efficient as no water is used in the chilling process.

Improved energy efficiency

The new front fascia and integrated airflow vent design in the command centre of the Zenith HydroTap enables improved energy efficiency, allowing air to be expelled out of the cupboard more quickly and efficiently.

At high usage periods, the HydroTap continues to deliver consistent chilled water while optimising energy efficiency by up to 24%. In standby mode, the HydroTap is 10% more energy efficient while ensuring consistent chilled temperatures on demand.

*when compared to preceding HydroTap models

What's in your water—and what do our filters reduce?

Understanding the 8 most harmful contaminants

1 PFAS

Per- and polyfluoroalkyl substances (PFAS) are synthetic chemicals widely used in industrial and consumer products.

PFAS do not easily break down in the environment, leading to persistent contamination in water sources. Studies have linked PFAS exposure to serious health risks.

2 Microplastic Consumption

Microplastics consumption from drinking water is a growing concern with the average person consuming a credit cards worth every week.

Although microplastics are present in a variety of foods, drinking water—especially bottled water—is often one of the most significant sources of exposure, at times exceeding levels found in seafood or salt.

6 Cysts (including Cryptosporidium & Giardia)

Cysts - such as Cryptosporidium & Giardia, can cause severe gastrointestinal illness upon ingestion.

3 Chlorine, Taste & Odour

Chlorine and other contaminants can leave unpleasant tastes and odours in your water.

4 Particulates (>0.2 micron)

Particles in your water can cause it to be cloudy or discoloured.

5 Asbestos

Microscopic asbestos fibers can lead to severe health issues, including lung diseases and cancers.

7 Lead

Lead exposure can result in serious, long-term health problems, particularly neurological damage and developmental issues in children.

8 Bacteriostatic effects

Actively inhibits bacterial growth and biofilm formation, thereby maintaining the water's purity and long-term safety.

Zenith MicroPurity 8 in 1 filtration

The clear choice for clean, pure-tasting water

Choose a genuine Zenith MicroPurity™ filter for your HydroTap. Our Zenith MicroPurity™ filtration technology offers advanced protection against harmful contaminants, including PFAS and microplastics.

Our 0.2-micron filters are certified to reduce the 8 most harmful contaminants, even those you can't smell, see, or taste including:

- PFAS*
- Microplastics
- Asbestos
- Sediment > 0.2 Micron
- Lead
- Chlorine taste and odour
- Bacteriostatic effects
- Cryptosporidium, Giardia

Regular filter replacements and servicing are necessary to ensure optimal performance and water quality of these drinking water filtration systems. We recommend Zenith MicroPurity 0.2 micron filters to be changed every 12 months for residential HydroTap systems and every 6 months for commercial HydroTap systems.

*Zenith MicroPurity filters sizes 1 and 1.5 (93701 & 93702) are certified to NSF/ANSI Standard 53 to reduce 99.4% of Total PFAS (average reduction).

Triple Action Technology for superior filtration

1. Removes particulates greater than 10 micron
Pleated membrane pre-filtration

2. Reduces total PFAS, sediment, microplastics, lead, chlorine taste and odour, bacteriostatic effects, asbestos and cysts to 0.2 micron.
0.2 micron treated carbon block

3. Reduces limescale build up
Limescale inhibitor

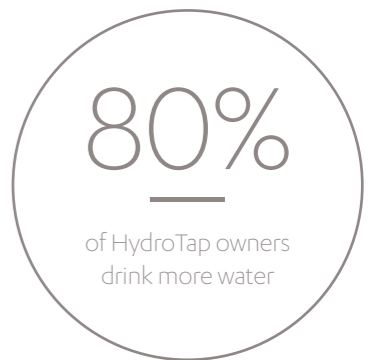

Zenith HydroTap owners drink more water

Whether you're striving to live a healthier lifestyle, or boost the wellbeing of your family, staying hydrated is key – a feat that has never been quicker or easier with Zenith HydroTap. In fact, our research shows that 80% of HydroTap owners drink more water than before*.

Transforming ordinary tap water into the purest-tasting filtered boiling, chilled and sparkling water, you'll not only start drinking more, you may also enjoy a host of mental and physical health benefits; from improved concentration, cardiovascular, muscle and joint health, right the way through to keeping your body cool, skin supple and cleansing toxins from the body.

With a taste that's truly irresistible, it's easy to see why.

*Research carried out to 340 existing Zenith HydroTap customers

The safest instant boiling water

Boiling water safety lock

Unique boiling water dispensing safety features requires a dual action reducing the likelihood of accidentally activating the boiling water which means little ones are safer.

Cool touch tap

The HydroTap is cool to the touch and does not produce any spluttering steam, which means it is always safe to use.

The Zenith service difference

Our highly skilled network of mobile technicians and friendly customer service team are here to help keep your Zenith products in top working order. Our expert technicians install HydroTaps across residential and commercial kitchens, and we can help to maintain any drinking water systems.

National coverage

Zenith Water employs over 65 technicians and regional service providers offering installation and ongoing filter and CO2 changes, covering the North and South Islands.

Professional repairs and maintenance

Zenith technicians are highly skilled, specialised and factory trained with years of experience to ensure you receive efficient, reliable and prompt service and repairs.

Fast and efficient

Every Zenith service technician carries a range of spare parts, genuine filters and CO2 canisters to repair on first time attendance, which means you can get back to enjoying your fresh, filtered water in no time.

Customer satisfaction

We aim to provide our customers with professional care at a high standard and take pride on our level of service.

Zenith installation service

Zenith Water offers an installation service with our team of highly skilled service technicians and regional service providers available to install your HydroTap in any kitchen*.

* Available where suitable power, water and drainage are available within 1 metre of the installation location. Excludes cutting of stone countertops, cabinetry and major plumbing modifications.

A history of drinking water innovation for over 75 years

Zenith Water is a world-leading designer and manufacturer of instant boiling, chilled and sparkling filtered water solutions. Zenith Water's parent company Zip Water invests in Australian-based innovation design and world class manufacturing to continually enhance water quality, functionality, energy efficiency and aesthetic appeal. Recognised as a global innovator, Zenith Water's products are sought after and installed in over 75 countries worldwide, providing homes and workplaces with the purest-tasting, safest and cleanest water possible.
